

3D PRINTING REQUEST FORM

The 3D Printer is a device that prints 3-dimensional objects using ABS filament. It supports classroom assignments and personal creativity. To create objects for printing either use 3D modeling software available online, such as Tinkercad.com, or download files from Thingiverse.com. Please create your 3D file before submitting the form.

Basic Information

Patron must have a McAllen Public Library card in good standing

Name _____
